

Lab Policy:

1. Bring a lab notebook to the first lab.
2. The lab notebook has to be signed by the TA and submitted for grading before leaving the lab.
3. Use blue or black pen to record data.
4. Write down all the data you measure and show all calculations in the lab notebook along with question number.
5. You should attend the lab section that you registered for.
6. Make-up labs can be done in other lab sections, if the section has free slots. But priority will be given to the students registered in that section.
7. You have two weeks to make-up incomplete or missed labs.
8. Turn in your PSPICE assignments on the next lab meeting.

Regrade Policy:

Write your request on a separate sheet of paper and submit it with your lab notebook.
