HW 7 MAKE UP ASSIGNMENT

For this assignment, turn in a one page report on an embedded systems research project at UCSD or another university. The report should be written clearly with proper grammar and spelling. It may help to have a friend read and understand your report before you hand it in. The UCSD embedded systems lab web page can be found here:

http://mesl.ucsd.edu/ess/

Your report should answer the following questions:

(1) What problem is the researcher(s) trying to address?
(2) What did the researcher(s) do?
(3) What results did they achieve?

The report is due before class on Thursday, November 19th. Please email it to the TA at jlyles@cs.ucsd.edu
