Course Policy

Logistics The course requires attendance at the lecture. Mr. Faraby is the TA for CSE 140L. Mr. Faraby’s email is hfaraby@ucsd.edu. All email enquiries regarding CSE140L should be addressed to Mr. Faraby only. Questions of wide interest and their associated answers will be posted on the web. Email enquiries should be restricted to logistical issues only; all technical issues should be discussed at the office hours.

Lectures The lecture will cover a) a brief review of the theory relevant to the lab assignment and b) a discussion of the lab and its practical aspects.

Labs There will be five (5) labs required for this course. They will be due in 1 week intervals except for the first lab due two days later. Labs will be due on Wednesdays at 4:00 PM one week later (except for the first lab due two days later, on June 29th). Late labs will be accepted until the subsequent Monday 4:00 PM five days later. The first lab can be turned in late with no penalty incurred. There is no late lab possibility for the last lab. Of the remaining three labs, one can be turned in late at no penalty whatsoever. Any subsequent late labs will not be graded and will receive a grade of zero.

Final Exam There is going to be a final exam for CSE140L, testing the proficiency that you have acquired in your lab course. The final exam will be held on July 29, 2010, 7:00 to 10:00 PM at EBU3B 2154. There will be no make-up tests given for any reason. To get credit for the exam, attendance during the scheduled time period is required. No make-up tests will be available.

Lab Teams You can work and submit your labs in groups of two. You can of course discuss and work together with your lab teammate. No other collaborative work with any other student in the class is possible. It is our expectation that each group’s lab reflects the work of that group only and nobody else’s; any indication to the contrary will constitute a violation of the UCSD Policy on Integrity of Scholarship and will be seriously prosecuted.

Regrade Policy Sometimes you get a grade that you don’t like, either because we added up the points wrong or because you think we evaluated you wrongly. If you believe that a regrade is needed, please inform us immediately by providing a written description of the reason why a regrade is necessary. In case of a regrade, your whole lab (or final exam) will
be regraded, possibly resulting in a lower total score. If no regrade is requested within one week, the following Statute of Limitations will apply:

You have one week from the day any particular graded exam or lab is made available to you to appeal the grade you received. After one week, we will assume that you believe the grade that you got is the correct one. After one week, grades are unchangeable, fixed and permanent.
