Collaboration Policy

- OK to discuss approaches, design, algorithms
- You must NOT share any actual code
- What you submit must be **your own work**
- The only non-personally developed code you are allowed to use is what is provided to you via the getprogramN script
What Constitutes Cheating?

• Using ANY code that you did not come up with
  – Other than what you were given
  – Make sure you use the official W17 copy

• Making your code available to others
  – Intentionally or unintentionally
  – It is your responsibility to protect your code
  – If you remove from ieng9, you’re taking a risk
