

**You've got questions about your future.**  
**What is working in industry like?**  
**What about grad school?**  
**How will you manage a career and a life?**

**Why not email your mentor about it?**

MentorNet's award-winning **One-on-One Mentoring Programs** pair undergraduate and graduate engineering and science students with professionals in their field. The program is open to *all* eligible UCSD students seeking a professional mentor. As part of this program you can:

- Indicate your preferences, and get a set of potential mentor matches to choose from.
- Communicate by email about career goals, course work, and other topics with your mentor.
- Receive advice and support, and build your pre-professional network.
- Take part in a lively online community of professionals and students all over the world.
- Add your resume to the MentorNet Resume database.

**It's FREE\* – sign up today at**
