At Viasat, our team is moving the world forward. From land, to air, to sea, we’re hard at work delivering the world’s fastest satellite internet connections to help bridge the digital divide and improve life for our customers around the globe. We embrace unknowns, challenge conventional wisdom, and are uncompromising in our quest to become the world’s first truly global Internet Service Provider.

**Interested in moving the world forward with us? Join us to learn more about opportunities with Viasat.**

**Be a Satellite Pilot – Now Hiring!**

November 15, 2018  
5:30 – 7:30  
Qualcomm Conference Center

As a Satellite Controller Student you will work in pairs with a Viasat Satellite Controller Employee. Together, you will both perform daily monitoring and command functions for the Viasat fleet of satellites as well as operate and manage the daily functions of the supporting TT&C ground network.
