

## **CSE 233 Database Theory**

### **Enrollment application**

CSE 233 is an advanced class in database theory, requiring a solid database background as well as good math skills. Work in the class involves writing proofs, many non-trivial. To make sure all students have the right background, enrollment requires approval of the instructor. If you are interested in taking CSE 233, please email me the following information:

- Your name and department
- Degree objective and research/specialization area
- Database related classes you have taken  
(brief description and grade)
- Discrete math and logic classes you have taken  
(brief description and grade)
- Your reason for taking CSE 233
