

CSE 123 - Lab instructions

1. ACMS Account :

You must have received an email from ACMS with your username and password to login into ieng6.ucsd.edu machine. If you haven't already, please contact the TAs.

2. Logging into your account :

Follow the instructions below to login into your lab machine.

1. Open up terminal (for Linux/MacOS) or Command Prompt (for Windows)
2. Type 'ssh <username>@ieng6.ucsd.edu'. If it doesn't work, try using one of the machines ieng6-240.ucsd.edu through ieng6-254.ucsd.edu.
3. Enter your password when prompted.

You will be logged into your account, provided you enter the correct username and password.

3. Submitting your project :

We will be using turnin[1] for the project submission.

Once you have completed the project, follow the steps below to submit your project.

1. Copy the project files over to your home directory in the lab machine
 - a. Eg. `./home/linux/ieng6/cs123f/username/project1`.
2. 'cd' into your directory.
 - a. Eg. `$ cd project1`
3. type 'make submit'. The project will be submitted.

Note : 'make submit' will tar everything in the directory, create an archive named "project1.tgz" and run turnin on that file.

[1] <http://acms.ucsd.edu/info/turnin.html>

If you have any issues in logging into the account and submitting the project, post your query on Piazza or contact Narendran (naren@cs.ucsd.edu) / Anup (anupc@cs.ucsd.edu).
