Final December 6, 2016, 7:00 – 10:00 PM

Assignments Homework problems will be assigned on October 6 and 20, and November 17; only a selected subset of problems as indicated on the homework will be graded. Homeworks will be due at 5:00 PM on October 19, November 2, (both Wednesdays) and December 2, (Friday) respectively; you need to turn in your solutions for the homeworks to be graded electronically by the deadline; any homeworks turned in after the deadline will not be read and will receive a grade of zero. You can work in *teams of two* on all homeworks. Solutions to the homework problems will be covered in the discussion sections.

Statute of Limitations You have one (1) week from the day any particular graded exam is made available to you to appeal the grade you received. After one week, we will assume that you believe the grade that you got is the correct one. After one week, grades are unchangeable, fixed and permanent.
