Assignments Homework problems will be assigned on April 5, and May 3 and 24; only a selected subset of problems as indicated on the homework will be graded. Homeworks will be due at 4:00 PM on April 25, May 18, and June 3, respectively; you need to turn in your solutions for the homeworks to be graded electronically by the deadline; any homeworks turned in after the deadline will not be read and will receive a grade of zero. You can work in *teams of two* on all homeworks. Solutions to the homework problems will be covered in the discussion sections.

Discussion Sections Some of the office hours of Mr. Kwangyoon Lee, particularly prior to exams, may be converted to discussion sections to help you better prepare for the exams and to go over the homework problems.

Pop Quizzes There will be a number of *unannounced* quizzes given during lectures. The lowest grade on the quizzes will be dropped, with the remaining quizzes contributing equally to the 10% portion of your grade.

Statute of Limitations You have one (1) week from the day any particular graded exam is made available to you to appeal the grade you received. After one week, we will assume that you believe the grade that you got is the correct one. After one week, grades are unchangeable, fixed and permanent.
