

## Steps to Subscribe to Your zyBook

1. Visit [zybooks.com](https://zybooks.com).
2. *Every student needs to create an account:*  
If you do not have an account, click “Create account” in the middle left of the page.  
If you have used a zyBook in the past and have a zyBooks account, click “Sign in” at the top right and skip to step 4.

The screenshot shows the zyBooks website homepage. At the top, the navigation bar includes the zyBooks logo, links for "About", "Blog", "Research", and "Sign in". A green arrow points to the "Sign in" link. Below the navigation bar, the main content area features the heading "Interactive textbook replacements" with the tagline "Less text, more action.™ Proven to improve college STEM grades." To the right of this text is an illustration of a stack of books, a laptop, and a hand interacting with a screen. Below the main heading, a blue button labeled "Create account" is highlighted with a red arrow pointing to it.

The bottom section of the page is a dark blue banner with a white owl logo on the left. It is divided into two columns: "Instructors" and "Students".

Instructors	Students
Use a zyBook in your class instead of a textbook	Use zyBooks in your classes, or study on your own
<a href="#">Find out more</a>	<a href="#">Get started</a>

3. When creating an account, fill in all the required fields. Make sure to use your school email address if your instructor has required it. Then click “Create account.”

4. Once you have created your account or signed in, you will have access to your *My zyBooks library*. You will see one zyBook, called “How to use zyBooks” in your library.

Below your library is a field where you should enter the class code that your instructor provided. It is best to copy-paste (class code is case sensitive). Once the code is entered, click “Find zyBook.”

### Are you in a class? Enter your zyBook code

zyBookTutorialJava

**Find zyBook**

**Just want to learn?**

- Learn and study at your own pace

5. This will bring you to your class zyBook. The first chapter and Table of Contents are freely available. Click the “Subscribe” button to gain full access to the zyBook. If you possess an access key, click the link that is just above the “Subscribe” button called “Have a coupon or access key?” Please note that if you purchased an access key from the bookstore, the price may differ from the posted price.

The screenshot shows the zyBooks interface for the course "Programming in Java". On the left is a table of contents with 11 chapters. The main content area displays the course title, a price of \$57, and a "Subscribe" button. A green arrow points to the link "Have a coupon or access key?" and a blue arrow points to the "Subscribe" button.

6. This will prompt for payment. Enter your information and click the “Pay” button.

The screenshot shows the same zyBooks interface, but with a payment modal open. The modal is titled "Programming in Java" and contains fields for "Card number", "MM / YY", and "CVC". A blue "Pay \$57.00" button is at the bottom of the modal, with a green arrow pointing to it.

7. After payment or entering your access code, your class zyBook will be added to your library. To access it again, simply go to your library on zybooks.com and click the class zyBook.

Become familiar with zyBooks by reading “How to use zyBooks,” found in your library.

The screenshot shows the zyBooks website interface. At the top, there is a navigation bar with the "zyBooks" logo on the left and "zyBooks Tutorial" with a user profile icon on the right. Below this is a section titled "My zyBooks library" which contains two book covers: "Programming in Java" and "How to Use zyBooks". A red arrow points to the "Programming in Java" book cover. Below the library section is a search area with the text "Are you in a class? Enter your zyBook code", a text input field, and a "Find zyBook" button. At the bottom of the page, there is a dark blue banner with the text "Just want to learn?" and a small "z" logo with the text "Learn and study at your own pace".
