Assignments Homework problems will be assigned on August 8, 20 and 29; only a selected subset of problems as indicated on the homework will be graded. Homeworks will be due at 4:00 PM on August 15 and 27, and September 5, respectively; you need to turn in your solutions for the homeworks to be graded electronically by the deadline; any homeworks turned in after the deadline will not be read and will receive a grade of zero. You can work in *teams of two* if you so desire on all homeworks. Solutions to the homework problems will be covered in the discussion sections.

Make-up Lectures The lecture on the last day of classes, namely, **September 5**, will be converted to a review section for the final. The corresponding lecture will be made up by converting the discussion section on **September 4** to a regular lecture. Additionally, the lectures on **August 15** and **27** will be converted to a discussion section to go over the homework due earlier that day; the corresponding lectures will be made up by converting the discussion sections on **August 14** and **26** to regular lectures.

Integrity All work in any exam or quiz must be your own; you must neither copy from nor provide assistance to anybody else. Each student is assumed to be familiar with the *UCSD Policy on Integrity of Scholarship* as described in the UCSD General Catalog. If you have any questions about these policies, be sure to discuss them with the instructor.
