Course Policy

Logistics The course requires attendance at the lecture. The Teaching Assistant for the course is Mr. Raymond Paseman (rpaseman@ucsd.edu). Messrs. Josh Marxen (jmarxen@ucsd.edu), Enrico Tanuwidjaja (etanuwid@ucsd.edu), and Sean Hamilton (sean.hamilton@me.com) are tutors for this course. We will be providing a moodle discussion board for possible logistical questions you may have regarding this course as well. It is best to discuss technical issues at the office hours as communication can thus be speeded up.

Lectures The lecture will cover a) a brief review of the theory relevant to the lab assignment and b) a discussion of the lab and its practical aspects.

Labs There will be five (5) labs required for this course. They will be due in 1 week intervals except for the first lab due two days later. Labs will be due on Thursdays at 4:00 PM one week later (except for the first lab due two days later, on August 8th). Late labs will be accepted until the subsequent Monday 4:00 PM four days later. The first lab can be turned in late with no penalty incurred. There is *no* late lab possibility for the *last* lab. Of the remaining three labs, one can be turned in late at no penalty whatsoever. Any subsequent late labs will not be graded and will receive a grade of zero.

Final Exam There is going to be a final exam for CSE140L, testing the proficiency that you have acquired in your lab course. The final exam will be held on Friday, **September 7, 2013**, 7:00 to 10:00 PM at EBU3B 2154. There will be no make-up tests given **for any reason**. To get credit for the exam, attendance during the scheduled time period is required. No make-up tests will be available.

Lab Teams You can work and submit your labs in groups of two. You can of course discuss and work together with your lab teammate. No other collaborative work with any other student in the class is possible. It is our expectation that each group's lab reflects the work of that group only and nobody else's; any indication to the contrary will constitute a violation of the **UCSD Policy on Integrity of Scholarship** and will be seriously prosecuted.

Regrade Policy Sometimes you get a grade that you don't like, either because we added up the points wrong or because you think we evaluated you wrongly. If you believe that a regrade is needed, please inform us **immediately** by providing a **written** description of the reason why a regrade is necessary. In case of a regrade, **your whole lab (or final exam) will be regraded**, possibly resulting in a lower total score. If no regrade is requested within one week, the following Statute of Limitations will apply:

You have one week from the day any particular graded exam or lab is made available to you to appeal the grade you received. After one week, we will assume that you believe the grade that you got is the correct one. After one week, grades are unchangeable, fixed and permanent.
